

Security & Integration Response Request

Issued by the fictitious Meridian Civic Services Office to prospective knowledge-platform vendors.

Solicitation: MCSO-RFP-2026-081 **Issued:** August 10, 2026 **Due:** September 3, 2026

Response scope: five evidence-backed answers. Cite approved company material; clearly identify any uncertainty.

1. Purpose

Meridian Civic Services Office is evaluating a hosted knowledge platform for internal policy and case-management teams. Respondents must provide a concise, evidence-backed narrative using their approved company materials.

2. Required response areas

ID	Customer question	Required evidence
Q1	Describe supported enterprise identity and access controls, including SSO and administrator controls.	Architecture or security control reference
Q2	Describe encryption and handling of customer content in transit and at rest.	Security control reference
Q3	Describe retention, deletion, and customer-request handling for content.	Data-handling policy reference
Q4	State recovery objectives and the process used to test business continuity readiness.	Continuity-plan reference
Q5	Describe API integration controls and operational monitoring.	Integration overview reference

3. Submission instructions

Provide a response that distinguishes supported capabilities from planned capabilities. Cite the source document title for each answer. Do not include unsupported claims. A human reviewer will approve the final submission before external delivery.
